### BCGSA GROUP INDUSTRY MEMBERSHIP APPLICATION

This package would be of interest to industry members who would like to belong to at least four of our regions, being the Lower Mainland, Interior, Kootenays, Island and Northern Regions. Being a Group Membership member entitles a company to have a representative in each of our five regions (this representative does not have to be the same person in each region and can be five different representatives if you desire).

The cost of this package would be \$850.00 for the year compared to the \$1150.00 + per year it would cost if each region were joined separately. With this package you are still only allowed one representative at a meeting but if you choose to have more than one representative at a meeting, you must make arrangements with that region for an additional member. You may also take out more than one Group Membership package if it serves your purpose.
