Overview

Well-maintained Smithco Super Star 8440 electric unit. This machine has benefited from significant recent investment in key mechanical and electrical components and is ready for continued service.

Recent Upgrades & Maintenance

- **New Trojan Motive J185H-AC 12V, 225Ah deep-cycle batteries** with new 2-AWG cables (installed January 2024)
 - Batteries have seen minimal use and have been properly maintained and periodically charged
 - Used motor controller and reconditioned motor installed in 2023
 - New left axle, hub, and bearing installed in 2022

New electrical components installed in 2022, including:

- Contactor
- Forward / reverse switch
- Accelerator
- Brake switch
- Speed control
- Actuator switches
- Seat switch

Attachments & Features

- Steel tine kit
- Finishing rake kit
- Quiet, emissions-free electric operation

Notes

- Unit is in good working order and has been maintained
- Normal cosmetic wear consistent with age and hours
- Reliable electric platform with major wear items already addressed

Asking Price: \$5,000, buyer pays for shipping
